WEB DEVELOPMENT

PRACTICAL ASSIGNMENT

HTML-Based Website Development

THREE WEBSITE PROGRAMS

1. Gaming Zone Website
2. Restaurant and Cafe Website
3. Movie Review Website

Assignment Overview

This assignment contains three beginner-level website programs developed using HTML and CSS. The Gaming Zone website also includes a small JavaScript function to display a welcome message. Each program demonstrates basic webpage structure, headings, paragraphs, navigation links, sections, images, styling, and footer content.

Software and Technologies Used

Visual Studio Code or any text editor

HTML5 for webpage structure

CSS for presentation and layout

How to Run the Programs

Open Visual Studio Code and create a folder for the assignment.

Create three separate files: gaming-zone.html, restaurant-cafe.html, and movie-review.html.

Copy the corresponding program from this document into each file and save it.

Keep the required image files in the same folder as the HTML file, or update the image paths in the code.

Open each HTML file in a web browser to view the website.

1. Gaming Zone Website

Aim

To create a simple website using HTML and CSS with a basic JavaScript interaction.

Description

A gaming-themed webpage that introduces popular games, displays tournament information, and provides a simple community welcome interaction.

Main Features

Dark background with a purple header and navigation bar.

Game cards display BGMI, Free Fire, and PC Gaming with image placeholders.

The Join Now and Join Community buttons call a JavaScript function to display welcome messages.

Source Code

```
<!DOCTYPE html>
<html>
<head>
    <title>Gaming Zone</title>
    <style>
```

body {

font-family: Arial, sans-serif;

```
background-color: #111122;
color: white;
margin: 0;
text-align: center;
        }
        header {
background-color: #6c27ff;
padding: 20px;
        }
        nav {
background-color: #222244;
padding: 15px;
        }
        nav a {
color: white;
text-decoration: none;
margin: 15px;
        }
        nav a:hover {
color: #00ffff;
        }
        section {
padding: 25px;
        }
.game {
background-color: #252545;
display: inline-block;
width: 220px;
margin: 10px;
padding: 15px;
border-radius: 10px;
        }
.game img {
width: 100%;
height: 130px;
object-fit: cover;
border-radius: 8px;
        }
button {
background-color: #00d9ff;
color: black;
padding: 12px 25px;
border: none;
```

```
border-radius: 5px;
cursor: pointer;
        }
        footer {
background-color: #6c27ff;
padding: 15px;
margin-top: 20px;
        }
    </style>
</head>
<body>
    <header>
        <h1>■ GAMING ZONE</h1>
        <p>Play Together. Compete Together. Win Together!</p>
    </header>
    <nav>
        <a href="#home">Home</a>
        <a href="#games">Games</a>
        <a href="#tournaments">Tournaments</a>
        <a href="#community">Community</a>
    </nav>
    <section id="home">
        <h2>Welcome to Gaming Zone</h2>
        <p>
Join our gaming community, play your favorite games,
and participate in exciting esports tournaments.
        </p>
        <button onclick="joinCommunity()">Join Now</button>
        <p id="message"></p>
    </section>
    <section id="games">
        <h2>■ Popular Games</h2>
        <div class="game">
            <img src="BGMI.jpg" alt="BGMI game">
            <h3>BGMI</h3>
            <p>Battle and survive with your team.</p>
        </div>
        <div class="game">
            <img src="free fire.jpg" alt="Free Fire game">
            <h3>Free Fire</h3>
            <p>Fight to become the last survivor.</p>
        </div>
        <div class="game">
            <img src="pc gaming.jpg" alt="PC gaming setup">
            <h3>PC Gaming</h3>
            <p>Explore exciting PC games.</p>
```

```
        </div>
    </section>
    <section id="tournaments">
        <h2>■ Esports Tournaments</h2>
        <p>BGMI Championship - Coming Soon</p>
        <p>Free Fire Battle - Registration Open</p>
        <p>PC Gaming Challenge - Coming Soon</p>
    </section>
    <section id="community">
        <h2>■ Our Community</h2>
        <p>
```

Meet new players, build your team, share gaming tips,

and enjoy competitive gaming with friends.

```
        </p>
        <button onclick="joinCommunity()">Join Community</button>
        <p id="communityMessage"></p>
    </section>
    <footer>
        <p>© 2026 Gaming Zone | All Rights Reserved</p>
        <p>Level Up Your Gaming!</p>
    </footer>
    <script>
        function joinCommunity() {
```

document.getElementById("message").innerHTML =

"Welcome to Gaming Zone! ■";

document.getElementById("communityMessage").innerHTML =

"Thanks for joining our gaming community!";

```
        }
    </script>
</body>
</html>
```

Expected Output

A dark-themed Gaming Zone webpage with navigation links, three game cards, tournament details, community information, and buttons that display welcome messages.

2. Restaurant and Cafe Website

Aim

To create a simple website using HTML to display the required information in a clear webpage layout.

Description

A restaurant webpage that presents food items, cafe specials, information about the business, and contact details.

Main Features

Navigation links move to Home, Menu, About Us, and Contact sections.

Menu items and sample prices are displayed in separate content boxes.

A warm cream-and-brown colour theme is used for a simple restaurant design.

Source Code

```
<!DOCTYPE html>
<html>
<head>
    <title>Restaurant and Cafe</title>
    <style>
body {
font-family: Arial, sans-serif;
background-color: #fff8e7;
margin: 0;
        }
        header {
background-color: brown;
color: white;
text-align: center;
padding: 20px;
        }
        nav {
background-color: #333;
padding: 12px;
text-align: center;
        }
        nav a {
color: white;
text-decoration: none;
margin: 15px;
        }
        section {
padding: 20px;
text-align: center;
        }
.menu {
background-color: #f5deb3;
padding: 15px;
margin: 10px;
border-radius: 10px;
        }
        footer {
background-color: brown;
color: white;
text-align: center;
padding: 10px;
```

```
        }
    </style>
</head>
<body>
    <header>
        <h1>Welcome to Olive Tree Restaurant &amp;amp; Cafe</h1>
        <p>Delicious Food, Fresh Coffee, Happy Moments!</p>
    </header>
    <nav>
        <a href="#home">Home</a>
        <a href="#menu">Menu</a>
        <a href="#about">About Us</a>
        <a href="#contact">Contact</a>
    </nav>
    <section id="home">
        <h2>Enjoy Your Favorite Food!</h2>
        <p>We serve tasty meals, snacks, coffee, and refreshing drinks.</p>
    </section>
    <section id="menu">
        <h2>Our Menu</h2>
        <div class="menu">
            <h3>Restaurant Food</h3>
            <p>Veg Meals - ■120</p>
            <p>Pizza - ■180</p>
            <p>Burger - ■100</p>
        </div>
        <div class="menu">
            <h3>Cafe Specials</h3>
            <p>Hot Coffee - ■40</p>
            <p>Cold Coffee - ■80</p>
            <p>Sandwich - ■70</p>
            <p>Milkshake - ■90</p>
        </div>
    </section>
    <section id="about">
        <h2>About Us</h2>
        <p>
```

Our restaurant and cafe provide delicious food,

quality beverages, and a comfortable place

to spend time with friends and family.

```
        </p>
    </section>
    <section id="contact">
        <h2>Contact Us</h2>
        <p>Address: Main Road, Nellore</p>
        <p>Phone: 9876543210</p>
        <p>Email: kubera@example.com</p>
```

```
    </section>
    <footer>
        <p>© 2026 Kubera Restaurant &amp;amp; Cafe</p>
    </footer>
</body>
</html>
```

Expected Output

A restaurant and cafe webpage with a brown header and footer, navigation links, food menu, cafe specials, about section, and contact information.

3. Movie Review Website

Aim

To create a simple website using HTML to display the required information in a clear webpage layout.

Description

A basic movie review webpage that displays three movie entries with poster images, genre, release date, cast, rating, and a short review.

Main Features

The page uses a black background with orange headings.

Each movie has an image placeholder and basic information.

The three entries are RRR, Baahubali, and Pushpa.

Source Code

```
<!DOCTYPE html>
<html>
<head>
    <title>Movie Review Website</title>
</head>
<body bgcolor="black" text="white">
    <center>
        <h1 style="color:orange;">MOVIE REVIEW WEBSITE</h1>
        <p>Welcome to my movie review website</p>
        <hr>
    </center>
    <h2 style="color:orange;">1. RRR</h2>
    <img src="ram.jpeg" width="150" height="200" alt="RRR movie poster">
    <p><b>Genre:</b> Action, Drama</p>
    <p><b>Release Date:</b> 25 March 2022</p>
    <p><b>Cast:</b> Ram Charan, Jr. NTR</p>
    <p><b>Rating:</b> 9/10</p>
    <p><b>Review:</b> RRR is an exciting movie with amazing action scenes.</p>
    <hr>
    <h2 style="color:orange;">2. Baahubali</h2>
    <img src="bahu.jpeg" width="150" height="200" alt="Baahubali movie poster">
    <p><b>Genre:</b> Action, Fantasy</p>
    <p><b>Release Date:</b> 10 July 2015</p>
```

```
    <p><b>Cast:</b> Prabhas, Rana Daggubati</p>
    <p><b>Rating:</b> 8.5/10</p>
    <p><b>Review:</b> Baahubali is a wonderful historical fantasy movie.</p>
    <hr>
    <h2 style="color:orange;">3. Pushpa</h2>
    <img src="pushpa.jpeg" width="150" height="200" alt="Pushpa movie poster">
    <p><b>Genre:</b> Action, Drama</p>
    <p><b>Release Date:</b> 17 December 2021</p>
    <p><b>Cast:</b> Allu Arjun, Rashmika Mandanna</p>
    <p><b>Rating:</b> 8/10</p>
    <p><b>Review:</b> Pushpa is an entertaining movie with powerful performances.</p>
    <hr>
    <center>
        <h3 style="color:orange;">Thank You for Visiting!</h3>
    </center>
</body>
</html>
```

Expected Output

A black-and-orange movie review webpage showing three movies and their poster images, details, ratings, and short reviews.

Conclusion

The three programs demonstrate the use of basic HTML elements and simple styling techniques to build different types of websites. The assignment provides practice in creating page sections, navigation links, content blocks, images, and a basic JavaScript interaction. The programs can be improved further by adding responsive CSS, external stylesheets, forms, and additional interactive features.

Image Files Required

Place the following image files in the same folder as the related HTML file, or change the image source paths in the code:

Gaming Zone: BGMI.jpg, free fire.jpg, pc gaming.jpg

Movie Review: ram.jpeg, bahu.jpeg, pushpa.jpeg

Note: If an image does not appear in the browser, check that the filename, extension, and letter case match the src value exactly.
